

HUGE huge thank you to Andy of Andy Adkins Driving School for helping me pass first time at Enfield Test Centre with only 5 minors. Driving meant so much to me and I am thrilled to finally be passed and on the roads. I never thought I would of been able to do it as I was so under-confident in the beginning, as many new drivers are, but Andy always made lessons fun which made it so easy, reassuring me whenever I needed a boost, teaching me all the skills I'd need and explaining everything in the easiest way possible to understand and remember. His patience and calmness made me comfortable and in the end 100% confident with driving. He was always available making sure he could fit me into his schedule whenever possible and very reliable when booking a lesson around my work time table. I highly recommend Andy Adkins Driving School for affordable and reliable driving lessons and always mention Andy to whoever I recommend. So many of my friends had bad experiences with driving schools/ teachers so picking the right one can be hard to find. But I was lucky enough to come across Andy and I'm so glad I did. Thank you again Andy for everything. You made all lessons fun and enjoyable which made the time fly by and made passing easier than what I ever thought it would be.

Chloe
