

I had lessons with someone else and 1 failed test before I have switched to Andy. I am very glad I have found him as I was close to quitting and giving up on driving. He has helped me to be a confident driver and greatly improved my driving skills. I was learning something new and improving every lesson. All techniques shown were so simple and easy to follow that driving became a joy. In just 5 lessons I went from terrified to calm and confident. He made sure I was well prepared for my test and for everyday driving. I can honestly say I could not have done it without him.

Thank you for believing in me 😊

Kind Regards

Joanna
