

I started to learn to drive when I was 23, I put it off for a long time as I was unsure if I would even be able to learn to drive, also felt nervous on the road. I heard about Andy Adkins due to a few people I work with had had him as an instructor and passed, then my sister had Andy and passed too, so I plucked up the courage to learn to drive and it was the best thing I have ever done. Andy is fantastic, makes you feel very comfortable on the road, safe and is with you every step of the way. Loves having a good old chat and laugh which also puts you at ease while driving. I passed first time with 5 minors and that is all down to Andy, wouldn't of done it without an amazing instructor like Andy, would definitely recommend to anyone out there who is thinking of learning to drive, you definitely won't regret driving with Andy; he's the best! Thank you Andy you're a star!
