

I want to say a huge thank you to Andy who helped me pass my test. After 5 attempts and a few different instructors Andy was able to help me by recognising my skills and weaknesses and teaching to a style that worked best for me. I have always been a nervous learner but Andy showed lots of patience and was able to build up my confidence. I couldn't have asked for a better instructor to help me learn how to drive. Andy has fully equipped me with all the skills I need to know in order to be a safe road user. Thank you Andy! – Maria
