

If you were to ask me I would have never thought in a million years that I could pass my driving test first time, but all thanks to Andy I managed to do so. Andy Adkins is one of the most genuine relaxed instructors that I have ever known, he was very patient and determined to help me reach the level I wanted to be at so that I could be confident enough to book and take my driving test. I would definitely recommend Andy as an instructor because no matter how bad of a driver you think you're Andy will not rest until you feel comfortable and skilled enough to be able to pass your test.

Once again thank you for helping me to not just pass first time but to pass with no hassle or stress.

All the best for the future for you and your family.

Nic.
