

I would just like to thank Andy Adkins so much for teaching me to drive. Since day one he has had complete and utter faith in me, which is very reassuring and kept me very calm. Andy didn't just teach me to pass my test, but instead he taught me how to actually drive! And best of all, there was never a frown on his face, Andy is one of the kindest, happiest and calmest people I've ever met. Even on the dreaded test day, his composure and faith in me made me feel a lot less nervous and much more focused. I would recommend Andy to anyone, he was an absolute star and I am so grateful for all he taught me. Sam.
