

As a '45 year old female learner' I had failed 3 tests over a period of 20 years. I was very nervous and lacked confidence, but Andy put me at ease straight away. He is very patient, calm & reassuring. His ability to explain & guide are second to none. After every lesson I came away feeling I had accomplished something new & confident that I was a step nearer to passing my test. His knowledge & expertise are paramount to the first class driving instructor he is. After having just over 2 months tuition I Passed my Driving Test & it's all thanks to Andy. I wouldn't hesitate in recommending Andy to friends & relatives who in the future decide they want to learn to drive. Thanks Andy you are a super star, you have given me the independence & freedom & a new lease of life. I feel very lucky to know you.

Thanks again for all your help & support

Kind Regards

Tracy
